Jennifer,

1. When is the updated 5 Year Review and an updated Citizens Involvement Plan scheduled for release and public comment for VB/ I-70?

The Five Year Review was just finalized at the end of September. EPA will be sending it out to the CAG and getting on the Website shortly.

The Community Involvement Plan draft is in draft form. We will be sending it out to the CAG and interviewees for review in the next week or so.

2. Are there any updated reports for OU2 and OU3 to provide to the CAG?

No, nothing recent. I'll check with Jesse and let you know if that's not the case.

3. You mention in an email that the OneDrive is a privileged site for the CAG for documents and some drafts. Does this mean that the general public cannot review the information at this site?

Yes, as we have repeatedly explained, information on the One Drive includes information such as draft documents that are not final to the public yet. The draft documents we provided initially as a privilege to Chuck Norris to review on behalf of the CAG, though all of the CAG has access.

Thanks,  
Joan Seeman

> Hello everyone. Joan Seeman pointed out to me that there might be some confusion regarding my recent invitation to you to conduct a community interview with EPA regarding VB/I-70 Superfund Site. The interview is NOT a forum to comment on the proposed delisting of the residential properties, OU1, from the Superfund site. That's a separate process. The interview IS an opportunity to help inform our 2019 community involvement plan and five-year review of the site. Essentially, your feedback from these interviews will help us understand the best ways to communicate with you about the site going forward, as well as learn from you any important information we might need to know as we conduct a five-year review of the site remedy to-date.
